

## Make your own!

### Common Darter Dragonfly Felt Puzzle

A Giant Insect World puzzle  
build it · take it apart · build it again

#### You will need:

- Orange, pale-cream & dark-brown felt
- Scissors
- This instruction sheet and template
- The blue felt mat for pond habitat (optional)

## How to build it

- 1 Trace each shape onto the right felt colour.
- 2 Cut out all 7 pieces carefully.
- 3 Lay the blue mat down — that's your pond!
- 4 Place the long orange body down the middle.
- 5 Add 2 wings each side — spread them out wide.
- 6 Add the 2 dark eyes at the top (the head). Done!

## Did you know?

One of the last dragonflies still flying in autumn.

Its 4 wings beat separately — it can fly backwards.

Huge eyes see almost all the way around.

A fierce hunter, catching midges in mid-air.

It starts life underwater as a nymph.

## The pieces

Find these colours in felt or paper

Orange · Pale cream · Dark brown

Using the template, cut out:

**Body ×1** — orange

**Wings ×4** — pale cream

**Eyes ×2** — dark brown

**That's 7 shapes in total!**

## Finished!

Your dragonfly is about 9 × 8 cm.

Take it apart and build it again!

Long body down the centre, 4 wings out wide.

**Collect the set:**

Aquatic: river skater, dragonfly, bell spider
